

Threshfield Primary School

100% of parents agree, 'School provides a positive atmosphere for my child to do his/her best'
Parent Questionnaire 2023

Our Curriculum

At Threshfield Primary School, our purpose is to educate the children, making them prepared for the big wide world. But enthusiasm and inspiration make an enormous difference to what we remember and why we remember it. We believe that giving the children the best start includes giving them something to remember for the rest of their lives.

Therefore, we strive to give our children an appetite for knowledge, learning and a curiosity of the world.

We approach teaching and learning with a growth mindset.

Our ambitious, interesting and progressive curriculum is enriched with our curriculum enhancements. Our uniquely designed curriculum is taught within a positive environment where children are praised and taught the skills of perseverance and resilience; where failure is not seen negatively but as a stepping stone in learning. Enabling children to know that success is never easy but something that must be worked for.

Our children work in safe environments where there are able to make mistakes and grow from them. Relationships in school are very important to us and we build a culture of respect, kindness, thoughtfulness and inclusion from the very beginning of a child's journey.

We see ourselves as one family and we respect and nurture of each other.

Within our environment and with the learning provided the children are able to discover themselves, find their passions and take their enjoyment of learning and discovery with them.

"The quality of teaching, learning and assessment is good. Teachers have high expectations for pupils' behaviour and conduct. They establish a productive working atmosphere and there are good relationships between staff and pupils and between pupils." Ofsted 2018

“Really appreciate the extra help for these who needed it post home schooling. The extra work put in after school hours is massively recognised and appreciated. It’s had a fantastic impact. Well supported in school.”

Early Years Foundation Stage

Our Early Years provision is one of our proudest environments.

We stimulate children’s natural curiosity, nurture their capacity to learn, enable them to form respectful relationships and to express themselves as individuals.

The Early Years Foundation Stage is taught within The Acorns Classroom. We take children from the term following their third birthday until they leave reception.

Key Stage 1 and Key Stage 2

Key stage 1 and 2 are split into three classes.

Classes:

The Seedlings: Year 1 and 2

The Saplings: Year 3 and 4

The Oaks: Year 5 and 6

Extra-Curricular Activities

As part of our wider curriculum, we offer children the opportunity to take part in a wide range of clubs, which are held both before and after the school day.

This includes Football, private music lessons, STEM (Science, Technology, Engineering and Mathematics), choir, Kanga Sports.
