Acorns

The acorns went on an adventure to Thornton Hall Farm. A trip to the farm is a fantastic day out but it actually offers the children more than that. Visiting a farm, gives the children the foundational understanding they require for historical teaching further up the school. Understanding how and why people farm, enables children to understand the development from the stone age to the iron age.

Learning with slides involved! Fantastic :)

Saplings

Putting our learning into action.

This half-term we have been studying bee conservation in our geographical learning. By visiting Harlow Carr we looked at 'Plant of the Planet' and how these can be used to make environmentally friendly items which helped reduce the use of plastics. We also planted seeds which attract bees so they can continue their vital pollination to support the environment..

World Book Day

A fantastic day was had by all.

25 years is a remarkable achievement, so a huge congratulations to both Mrs Whitaker and World Book Day.

You are both truly inspirations in both your special ways.
