Acting Headteacher's Message

What a week at Threshfield Primary School! It started with a visit from Reverend Peter Thomas who showed our pre-school and reception children beautiful shells and showed KS1 and KS2 children prayer labyrinths. Peter was so excited to visit school after such a long time away.

We also returned to Netherside Hall for our Sports Day and what an adventure it was! The team at Yorkshire Camps always go above and beyond for our children to make our visits extra special.

Dates for your Diary

28.06.2021
Grassington Festival Workshops

1.07.2021
UWS Year 6 Remote Transition

15.07.2021
KS2 Sports Day at Netherside Hall

23.07.2021
Last day of term

The Acorns

In the Acorns Class this week we have continues to look at different forms of transport and our English text this week has been 'The Train Ride.' The children joined in beautifully with the repetitive language and some children recreated their own train adventures during play. We have continued to explore shape by creating our own shape pictures and in the creative area we are making hot air balloons! The highlight of the week by far was our wonderful day at Netherside Hall. We had a wealth of activities to explore, starting the day with a Bear Hunt, searching in particular for a golden egg hidden in the forest, followed by a magical story book and circle games. Then in the afternoon the children took part in a carousel of sporting activities, finishing with our traditional races. It really was a superb day!

The Seedlings

Sports Day has been the main event for the Seedlings this week! I was incredibly impressed with the effort, enthusiasm and sportsmanship on display throughout the day. Netherside Hall has become a very special place for the children and we can't wait until our next opportunity to visit!

In maths we have been learning all about position and direction which has been great for learning our left from our right. In PSHE we have been learning about life cycles as part of our Changing Me topic. We also started learning a song 'Thank You for Our World' to go with our Geography work. In Science we have started the final season of the year: Summer. We would love to see your signs of summer when you're out and about.

The Saplings

We have had a learning-filled week in Saplings Class this week. It was brilliant to see the children getting totally immersed in creating their cave drawings for our display earlier in the week. The children have really engaged with our learning on non-chronological reports and have enjoyed planning a school report for one of the Harry Potter characters, ready to draft and then publish next week. The Year 2's all had a great time at sports day and have continued to enjoy spending more time with the other Year 2 children from Seedlings class this week. This week in ICT, the children have been focusing on coding, and produced some interesting programs.

The Oaks

Another busy week in Oak Class. Every Wednesday we have been exploring our Mathematical thinking with shared problem-solving tasks. This week we were considering a problem all about fractions and chocolate! The room was buzzing with mathematical conversation. Our topic is really coming together with some of our sea creatures reaching the 'stuffing' stage, which is giving us a glimpse of what our 'blue space' will look like - amazing! In English, our non-chronological reports are really being crafted, with lots of peer assessment and editing taking place, ready to publish next week. Fantastic work Oak Class.

Breakfast and After School Club

8am—8.50pm and 3.30—5.30pm

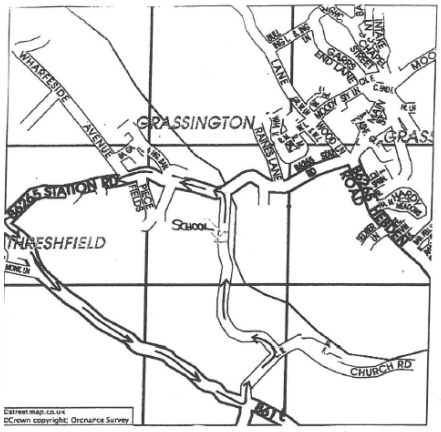
Please remember to book with Mrs Whitaker for Breakfast or After School Club. The children have been enjoying their new equipment this week!

The One-Way System

Hopefully everyone is aware of the on-way system which we have organised to support the drop-off and pick-up of children from school.
Our school is set in such an idyllic setting, however the roads around school are not wide or have pavements and our car-park is relatively small compared to the number of cars which use it daily. Therefore, the on-way system is vital to ensuring the safety of our school community, both pupils and parents.

We ask parents to travel down to school on Church Road (from the Linton direction) and then continue past school, towards Station Road (in the direction of Grassington) at both drop-off and pick-up times. This limits the need for parents to be reversing down the roads if a car is coming in the opposite direction.

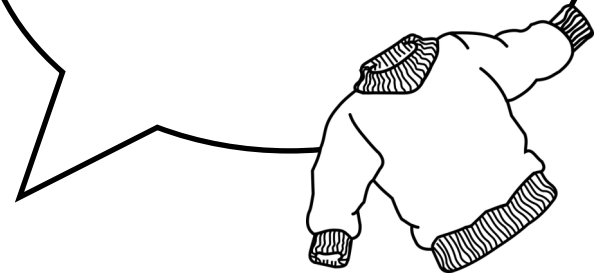
Map detailing the One-Way System



LABELS PLEASE

Please make sure all clothing and hats especially jumpers, cardigans and hoodies are clearly labelled with your child's name.

It seems small but it makes a huge difference!



KANGA SPORTS CLUB

Every Thursday
3.30—4.30

Children may come to school in their PE kits

Open to Year 1—Year 6
